

**COMMERCIAL  
WATER  
SOLUTIONS**

## **REDUCE YOUR BUSINESS WATER COSTS BY SWITCHING TO COMMERCIAL WATER SOLUTIONS (CWS)**

Switching to CWS is simple and secure. CWS have a streamlined transfer process which validates your address, supply points and ensures accurate and timely billing.

### **YOU'RE IN SAFE HANDS**

CWS staff have 6 years of direct experience in the Scottish Retail water market and have been involved in the UK Water Industry for more than 15 years. CWS is a Licensed Provider (LP) of Water & Waste services to any commercial properties in Scotland.

### **CONTACT US FOR A QUOTE**

Send us an existing invoice or quote. We'll check the services you are being charged for and return a competitive quote to you. Alternatively send us your business name and address. We'll send you a quote by email or post.

# What we do...

## WATER & WASTE SERVICES

- Savings compared with your current supplier
- Scottish Water infrastructure unchanged at your property
- Clear service and advice
- Easy to switch

## CWS WATER AUDITS

Water costs are commonly overlooked by companies. CWS staff can review your water, waste and drainage costs, identifying any potential savings. Water audits have resulted in annual customer rebates in excess of £30,000. Contact us to review your costs.

## WATER EFFICIENCY

A CWS water audit can reduce your costs in various areas:

- Installation of automatic meter readers
- Washroom solutions
- Meter downsizing

## PROFESSIONAL SERVICES

Our experienced water industry professionals can provide:

- Leak detection
- Water balancing
- Recycling systems
- Trade effluent advice
- New connections services
- Alternative water sources
- Waste treatment plant design & operation

## NEW CONNECTIONS

If you need a new connection to SW infrastructure, CWS will help you and submit the completed application to Scottish Water

As part of a long established group of companies, CWS can offer additional advice and services including insurance broking, lighting, telecoms, biomass heating, renewable energy and inbound marketing.
